ABOUT US

Officially founded in 2022, based on technology developed since 2019

Headquarters: Hamburg

Open-source business model

Major focus: building AI models and our Gravity enterprise AI platform
We launched our 1st gen LLM in 2021 and ASR in 2022

SECURITY

Enterprise Grade Security Model

Gravity is built from the ground up to support enterprise grade security through role based access control

High Security Facility

We’re deploying our compute cluster in an ISO certified high security facility in Germany with optical and biometric access control

Data Protection “Made in Germany”

All data is kept in the European Union, ensuring full compliance with GDPR and BDSG
